

Create Class

Drag to the right to draw a Class.

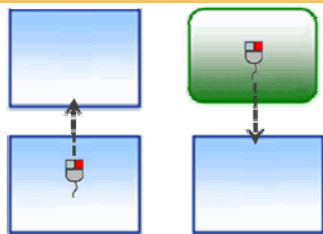

Create Transaction

Drag to the left to draw a Transaction.

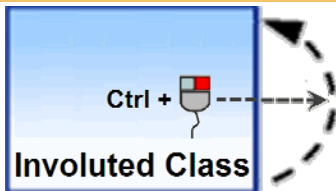

Create Group

Press the Control (Ctrl) key and drag either left or right to draw a Group. You can draw around objects that you want to group, and you can drag existing objects in and out of a Group.

Create Association

Click inside an object and drag in any direction to another object to draw an Association.

Create Involution

Press the Ctrl key in a Class and drag to the right to draw an arc for an Involution Association.

Annotation

Create Annotation

Double click the right mouse button to draw an Annotation.
